- GPA: 7.2/10
-

PROJECTS

🔗 Quickmark Chrome Extension

May 2025

- Built a Chrome browser extension for managing bookmarks.
- Used ReactJS, Tailwind and CSS3 for UI development and Firebase for backend, database and login/logout flow.
- Implemented features like adding, removing, searching and filtering bookmarks efficiently.

🔗 World Exploration App

May 2025

- An interactive web project that displays detailed information about every country in the world.
- Users can explore flags, populations, currencies, spoken languages, and other key facts in a visually engaging interface.

🔗 Personal Portfolio

April 2025

- Made a responsive personal portfolio from scratch using ReactJS and Tailwind to showcase my projects and skills.
-
